

LIST OF U.S. CUSTOMS LABORATORY METHODS

USCL NUMBER	METHOD	TITLE
19-01	AOAC 920.79	<u>Reichert-Meissl and Polenske Values of Cacao Fat</u>
19-02	AOAC 945.15	<u>Moisture in Cereal Adjuncts</u> <u>Air Oven Method (103-104E)</u>
19-03	AOAC 934.01	<u>Moisture in Animal Feed</u> <u>Drying in Vacuo at 95-100E</u>
19-04	AOAC 922.06	<u>Fat in Flour</u> <u>Acid Hydrolysis Method</u>
19-05	AOAC 920.85	<u>Fat (Crude) or Ether Extract in Flour</u>
19-06	AOAC 920.39C	<u>Fat (Crude) or Ether Extract in Animal Feed</u>

U.S. CUSTOMS LABORATORY METHODS

USCL METHOD 19-01

Index

AOAC 920.79

Reichert-Meissl and Polenske Values of Cacao Fat

SAFETY PRECAUTIONS

This method does not purport to address all of the safety problems, if any, associated with its use. It is the responsibility of the user of this method to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to its use.

1 SCOPE AND FIELD OF APPLICATION

Chapter 19 of the Harmonized Tariff of the United States (HTSUS) covers preparation of cereals, flour, starch or milk and bakers' wares. This method, along with other appropriate methods for chocolate products, can be used to determine fat content in cocoa.

AOAC 945.15 Moisture in Cereal Adjuncts Air Oven Method (103-104E)

SAFETY PRECAUTIONS

This method does not purport to address all of the safety problems, if any, associated with its use. It is the responsibility of the user of this method to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to its use.

1 SCOPE AND FIELD OF APPLICATION

Chapter 19 of the Harmonized Tariff of the United States (HTSUS) covers preparation of cereals, flour, starch or milk and bakers' wares. This method is used to determine the moisture in many items covered in this chapter.

USCL METHOD 19-03

Index

AOAC 934.01 Moisture in Animal Feed Drying in Vacuo at 95-100E

SAFETY PRECAUTIONS

This method does not purport to address all of the safety problems, if any, associated with its use. It is the responsibility of the user of this method to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to its use.

1 SCOPE AND FIELD OF APPLICATION

Chapter 19 of the Harmonized Tariff of the United States (HTSUS) covers preparation of cereals, flour, starch or milk and bakers' wares. This method can be used as guidelines in determining moisture in many items covered in this chapter using a vacuum oven.

USCL METHOD 19-04

Index

AOAC 922.06 Fat in Flour Acid Hydrolysis Method

SAFETY PRECAUTIONS

This method does not purport to address all of the safety problems, if any, associated with its use. It is the responsibility of the user of this method to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to its use.

1 SCOPE AND FIELD OF APPLICATION

Chapter 19 of the Harmonized Tariff of the United States (HTSUS) covers preparation of cereals, flour, starch or milk and bakers' wares. This is one method, of several, that can be used to determine fat in flour.

AOAC 920.39 C Fat (Crude) or Ether Extract in Animal Feed

SAFETY PRECAUTIONS

This method does not purport to address all of the safety problems, if any, associated with its use. It is the responsibility of the user of this method to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to its use.

1 SCOPE AND FIELD OF APPLICATION

Chapter 19 of the Harmonized Tariff of the United States (HTSUS) covers preparation of cereals, flour, starch or milk and bakers' wares. This is a method that can be used as guidelines to determine fat in cereal-type products.
